PRESS

‘I felt like I’d arrived on Treasure Island.’ *The Financial Times*

‘Gorgeous Little Whale Cay... Offers a dash of Bond, a splash of Blue Lagoon, all mixed in with a dose of The Admirable Crichton (with much better plumbing)... includes superlative food and service...

It feels like a real place, with history and a true identity... It offers a really quite unusual blend of relaxed, impromptu luxury - a quality increasingly difficult to find in these commercialised times. All in all Little Whale Cay has true class’

Anna Murphy - Sunday Telegraph

‘There are few places in the world where private islands are available to guests, especially ones as charming and unpretentious as Little Whale Cay’

Caribbean Living

‘Little Whale Cay is a 93 acre private island... I felt like I’d arrived on Treasure Island. Turtles lumber up on to the beaches kept clear by a staff of 12, and butterflies flit through the gardens. As a venue for celebration it allows parties of up to a dozen the opportunity to misbehave in privacy or to play out childhood fantasies of the Crusoe Life.’

From the FT’s How to Spend It

‘Lunches next to the whale shaped sea view infinity pool always consist of delicious, organic vegetables, grilled meat, fish, wine and dessert... foie gras and Champagne make the sunsets all the more fabulous.’

Kelly Carter - Entree Magazine

‘Little Whale Cay has become a firm favourite with the likes of Hollywood star Nicolas Cage. A perfect tropical paradise’

The Daily Mail

‘Little Whale Cay is the perfect retreat for families looking for home comforts in a desert island idyll.’

Sea and I

‘Even from 100 ft above you can see there is something special about this place with its stone chapel on the waterfront, several substantial stone buildings, magnificent trees, peacocks wandering about... Those who have stayed there say it was worth every penny and more.

From the plush towels wrapped with fresh bougainvillea to the homemade rum-raisin ice cream. From the personally led fishing trips with a man who is truly salty dog and knows every reef, bone fishing, the flat and blue holes & the views from a patio overlooking the sea, Little Whale Cay is a world of constantly unfolding wonders, an oasis of tranquility and beauty.’
